

General Informations Concerning the Possibilities to Sponsor the ISOBM 2010 Congress

Dear Corporate Partners,

There are three different ways to help us to organize a scientific congress on a high level:

Scientific Sponsorship

This unspecified general scientific sponsorship is extremely important for our congress, as it will allow us to keep the registration fee especially for students and young scientists at a minimum, to invite excellent researchers as invited speakers, and to hand out merit awards.

Depending on how much you want to donor, we provide different sponsor levels:

- Platinum sponsorship:** for a donation of ≥ 30.000 €
Gold sponsorship: for a donation of ≥ 20.000 €
Silver sponsorship: for a donation of ≥ 10.000 €
Bronze sponsorship: for a donation of ≥ 5.000 €

The various levels of sponsoring include the following:

Platinum Sponsorship:

- free complete congress participation for **4 company members**
- additional occurrence of the logo and name on the congress map
- preferred possibility to arrange a lunch symposium

Gold Sponsorship:

- free complete congress participation for **3 company members**
- additional occurrence of the logo and name on the congress map

Silver Sponsorship:

- free complete congress participation for **2 company members**

Bronze Sponsorship:

- free complete congress participation for **1 company member**

All sponsors will be indicated in the final program, during breaks in a presentation, and on our website.

Lunch Symposium

As the number of symposia is limited we will give priority to our **Platinum Sponsors**.

There will be 3 lunch symposia during our congress, namely on Saturday (September 4th), Sunday (September 5th) and Tuesday (September 7th). These lunch symposia will last one hour each, and there will be no parallel sessions. We offer these symposia to be organised by a corporate sponsor each. The scientific program as well as the lunch is organized by the sponsor. The speakers invited for the lunch symposium only, must not register for the congress.

As we decided to include the abstracts of the lunch symposia in our Abstract Book (published through the Journal of the ISOBM: TumorBiology, Springer), we ask you to hand in the abstracts until the **20th of July**.

Exhibition booths

One easy and basal way of supporting us might be to rent an industrial stand on the industrial exhibition area. Each space unit has 6m², up to 4 booths can be rent by one corporate sponsor. The rental fee is 400.- Euro / m²/ including VAT for the whole meeting at the first floor or second floor of our lecture halls.

The rental of a booth will include free complete congress participation for **1 company member**, and a reduced fee of 200€ for one technical assistant per every following booth bigger than 6m² (12m²-24m²).

Please take a look at the exhibition plan where you can see the position of the booths. It is possible to indicate your booths of preference on the Application Form.
